# Welcome from Sheboygan County Families

"Stay connected to your circle of friends and network of support. You don't need to do it all alone - allow the ones you trust to help."

"Have a sense of humor because your life is going to feel turned upside down the first couple of months. Your rhythm will come back and you will feel like you can finally make time for yourself."

"When things get tough, know it will pass with time."

"You will encounter a lot of people who will try to tell you what to do with your baby. Do what you feel is best for you and your baby."

"Do not read things which take your confidence away from being the best possible parent you can be."

"Take all of the help that is offered to you. If someone who you trust wants to spend time with your baby, let them."

**Advice from parents involved in the Sheboygan County  
Birth to Three program**
